Holiday Gift Guide The Perfect Gift By Ramie Haas

My friend, Janet, and I are always looking to get away for the day to honor our gypsy spirits, share our thoughts, blessings, and mutual love of wellness.

Recently we went to the new bed & breakfast inn, Museum Hill B&B, in St. Joseph, Missouri. The minute one walks into this magnificent, old world charm, architectural gem of a mansion, matching the love that exudes from the owners, John and Beth Courter, one cannot help but feel magical, elegant and well.

John claims the specific thing that sold him on this house was the old Vulcan cast iron stove that allows him to create his signature breakfasts that are included in your stay. The inn's four rooms are beautifully furnished with authentic antiques, reasonably priced, private and safe. The view boasts one of the best in the Historic Museum Hill District in downtown St. Joseph overlooking Civic Center Park and City Hall.

Janet came up with the idea to share this wonderful bed & breakfast with the readers of Wellness Magazine. I agree that this would be a great gift to oneself, family, and friends for this holiday season! It's a close getaway, only an hour from Kansas City.

Be Well and Happy Holidays!
